The portable tank on wheels have a 60 degrees cone bottom, pipe legs with cross bars and 4 polyurethane or polypropylene wheels, all in SS304, with hinged cover & mixer bracket, and optional finishes on inside and outside.

All prices are FOB Paterson, NJ. Delivery is 6 weeks from ARO.

Heating/cooling jacket designs able to withstand internal pressures of 15psig, 60 psig or 120 psig may be offered at sizeable increases in price.

Electro-polished finishes are offered only over a # 4 (150 grit) inside or outside finish at an additional cost ranging from \$800.00 to \$1,500.00 each unit with quantities discounts.

Teflon coating on inside surfaces is also quoted on request.

Teflon coatings & electro-polish work is subcontracted.

Prices include cover.

All prices may change without notice. Check with factory for latest prices.
