

## DANTCO SINGLE ACTING HYDRAULIC CYLINDERS MODEL DLC-XXXX

- HEAVY DUTY,
- SEVERE DUTY,
- LARGE ECCENTRIC LOADING

DANTCO OFFERS HIGH CAPACITY HYDRAULIC CYLINDERS FOR SEVERE AND HEAVY DUTY INDUSTRIAL INSTALLATIONS.

THESE CYLINDERS ARE AVAILABLE FROM 3 TO 15" PISTON DIAMETER, WITH UP TO 15 FT STROKES AND CAPACITIES EXCEEDING 1/4 MILLION POUNDS.

THESE CYLINDERS MAY ALSO BE SUPPLIED WITH AIR-OVER-OIL LIFTING SYSTEM AND CONTROLS OR HYDRAULIC POWER PACK AND CONTROLS. BOTH CONFIGURATIONS WILL MEET CURRENT TECHNOLOGICAL STANDARDS.

DANTCO ENGINEERING CONSULTANTS WILL BE HAPPY TO DISCUSS YOUR REQUIREMENTS.

All welded construction, ground & polished rods. Each cylinder is quality checked and tested before shipping. Each cylinder is supplied with air-over-oil reservoir/tank with controls properly sized for the application.

These cylinders are used by Dantco in the design and fabrications of Dispersers and Mixers for the specific purpose to lift Dispersers or Mixers head bridges out of one mixing vessel into another mixing vessel in production mode. The hydraulic power is supplied by an air-over-oil reservoir with proper controls supplied with each cylinder. Needed air supply is low volume and standard pressure from 60 to 120 psig maximum.
