

## DISK PADDLE TURBINE

MODEL DPT-04-6P-SS

Model or Type DPT-H-04-6P-SS is shown on top left. It has a diameter of 4", 6 paddles, hub with 5/8" bore and 2 set screws, on a 5/8" diameter shaft.

Bottom pictures show models in 2" diameter, 3" diameter and 4" diameter (type DPT-H-XX-6P-SS with hub or type DPT-XX-6P-SS with plain mounting hole)

Standard stainless type is 304. Stainless type 316 is optional and at higher prices.

These models are offered in diameters ranging from 2" to 36" with optional hubs and/or mixing shafts.

Mixing shafts in length from 10" and up are available with any of these blades.

Application is for radial flow when intense mixing is essential. They work best in the mixing speed range of 20 to 80 rpm.
