

**SERIES 5004
AIR MIXER/DISPENSER
DRUM LID MOUNTED**

MODEL DLA-150PL

- Variable Speed
- Heavy duty
- Standard torque
- Mixing/Dispensing application

STANDARD FEATURES

- 1 ½ HP @ top speed
- 100 to 3000 rpm, nominal
- 5/8" or ¾" mixing shaft, SS304
- 4" high shear blades
- Needle valve for speed control
- Silencer at air exhaust

OPTIONAL ACCESSORIES

- Filter regulator lubricator (FRL)
- Blades with hub
- 3/8" air line and connectors
- Mixing shaft inclination (10 to 15 degrees)
- Drum covers, CS or SS

This air mixer/dispenser model is bolted to the lid by a bracket and may be easily moved from one open drum to another. The mixing shaft goes through an opening in the lid. The high shear blade may be replaced with a marine type propeller or very high efficiency turbine. This model is equipped with a 1 1/2 HP air motor with a variable speed range of 300 to 3000 rpm.

The filter regulator lubricator (FRL) with gage is offered as an option. However, it is recommended for long and reliable air motor operation.
