

**SERIES 5004A
AIR MIXER
DRUM BUNG ENTERING
VARIABLE SPEED**

MODEL DBE150BG

This air mixer model is screwed in to the 2" NPT bung opening of the closed drum for quick and easy mounting on standard steel drums. The special adapter allows the shaft to be at an angle for optimum mixing. The standard folding impeller in SS304 folds for entry and opens to 4" diameter when mixing. The impeller comes with a hub that allows adjustment anywhere on the shaft. Additional impellers with various opening diameters are available. This model is equipped with a 1 1/2 HP air motor with a variable speed range of 300 to 3000 rpm.

MODEL DBE150PL

This air mixer model clamps on to the rim of the drum while is being inserted in to the 2" NPT bung opening of the closed drum for quick and easy mounting on standard steel drums. The special clamp allows the shaft to be at an angle for optimum mixing. The standard folding impeller in SS304 folds for entry and opens to 4" diameter when mixing. The impeller comes with a hub that allows adjustment anywhere on the shaft. Additional impellers with various opening diameters are available. This model is equipped with a 1 1/2 HP air motor with a variable speed range of 300 to 3000 rpm.
