

MOTOR CONTROL BOX 2 MOTORS STARTERS

MODEL DCB-N12-2/3HP

Features:

- ON/Off Switch for 2 HP motor
- ON/Off Switch for 3 HP motor
- E-Stop
- Lockable rotary switch
- Motor Starters with current limiters
- Drip-tight enclosure

Application:

- Motor controls for 2 HP and 3 HP double shaft mixer/disperser system

The Control Box is located by the mixer/disperser and it is wired to the motors and the site main power interrupts. The motor starters and the input current limiters provide a fail safe operating system.

This unit may be provided also in a NEMA 7 & 9 explosion proof enclosure for hazardous locations.
